

Quarterly Report

NY-506 - Fulton Montgomery Schoharie Counties CoC

4/1/2017-6/30/2017

Overview – All Programs

Between 4/1/2017 and 6/30/2017, providers in the Fulton/Montgomery/Schoharie Counties CoC served 35 people experiencing or at risk of experiencing homelessnessⁱ. Residential programs served these 35 peopleⁱⁱ.

There were 33 households in the CoC, including: 32 households without children (containing 33 individuals), 1 households with both adults and children (containing 1 adult and 1 child), and no households of only unaccompanied minors (under 18 years of age)ⁱⁱⁱ.

By gender, providers in the CoC served 10 (28.6%) women and 25 (71.4%) men.

The racial and ethnic breakdown of those served included: 23 (65.7%) White, 7 (20.0%)

Black or African-American, and 1 (2.9%) American Indian or Alaskan Native. 11 (31.4%) individuals identified as Hispanic/Latino regardless of race.

Of 34 adults or heads of household, 7 (20.6%) indicated a prior residence of Emergency Shelter, the streets, or Safe Haven. Of these clients, 4 (57.1%) reported no previous episodes of homelessness within the last three years. 2 (28.6%) reported that they had been 2 times homeless during the same time frame. 1 (14.3%) did not report on this data element.

The total number of individuals discharged during the quarter was 10, which included 10 adults and no children. 8 (80.0%) were discharged to a permanent destination. Income for 3 (30.0%) clients over 18 rose between admission and discharge, while 6 (60.0%) maintained stable income of greater than zero.

Special Needs – HUD and HHS Funded Programs Only

76.2% of adults (16/21) in HUD or HHS funded programs self-reported at least one physical, emotional, or other health condition *regardless of whether the condition had become serious enough to be disabling*. Among those reporting multiple conditions, the most significant

comorbidity was Mental Health and Substance Use (4). When taking severity of condition into account, 7 adults reported conditions that met the criteria to be considered a disability.

Sub-Populations – All Programs

1 (4.8%) individuals over 18 met the criteria for chronic homelessness at the time of project entry.^{iv}

Data quality and completeness play a major role in ensuring that these data accurately reflect the work being done within the CoC. CARES routinely tracks the health of HMIS data and this information may be found at www.caresny.org.

ⁱ Data breakdowns for subsequent categories may total less than this number due to differences in data reporting across funders, as well as data completeness. Information on **reporting methodology** and on **data completeness**, may be found at www.caresny.org

ⁱⁱ For the purposes of this report, any RRH enrollments are considered residential.

ⁱⁱⁱ Data based on current age and household composition, which may differ from information reported at admission

^{iv} Please note that HMIS began using HUD's new definition of chronic homelessness effective 10/1/2015 and all individuals in program on or after that date are measured using this new definition, even if their program start date was prior to the change in definition taking effect.
