INSTRUCTIONS: Informed Consent & Release of Information

- a) These are two (2) separate forms that share one (1) page and one (1) signature for resource conservation and client convenience.
- b) One (1) form must be completed and signed by EACH adult household member.
 - a. Minors may NOT sign for themselves or their children, even if they are the head of household.

<u>There is a SEPARATE form for minors and adults unable to sign for themselves</u>. This must be completed and signed by a parent or guardian for all minors and for all adult household members with developmental disabilities that would preclude them from signing a consent themselves.

CRHMIS Inclusion Disclosure

The CRHMIS has replaced *inferred consent* (a posted sign) with an *inclusion disclosure* (top part of reverse side) for the HMIS. They serve the same purpose.

No consumer consent is required by the CRHMIS to enter consumer data, in addition to any agency specific or CoC specific forms that may be presented upon intake. Consumers are asked to initial that they received the information.

While individual agencies and projects may have their own, overriding policies, refusing to initial the inclusion disclosure does **NOT** indicate a refusal to be included in the HMIS, and does **NOT** automatically disqualify consumers from receiving services from the agency or project. In the event of a consumer refusal, agency and CoC policy regarding these situations should be followed.

CRHMIS Client Release of Information

The CRHMIS is not an open system and does not automatically share data between agencies. However, to better coordinate case care, the CRHMIS Advisory Committee has agreed to a stepped implementation of consumer-driven data sharing.

If an agency or project allows data sharing (please contact kclark@caresny.org if you are not sure), a consumer may choose to share some or most of their data within the CRHMIS. This data is only shared with other CRHMIS users who have been trained in the system and have agreed to all privacy and security policies. Special conditions (i.e. mental health, HIV status, substance abuse status) are NEVER shared between agencies. Monitoring of agencies will include checking to ensure that physical forms and CRHMIS records match.

- a) If your agency or project DOES NOT participate in data sharing, you must check option 3 on this sheet and have the consumer sign and date the form, indicating that they understand that their data will NOT be shared, regardless of preference.
 - a. When entering the intake into the CRHMIS, "No Sharing" is the default and should not be changed.
- b) If your agency or project **DOES** participate in data sharing, you must give the consumer the choice to share at level 1 (most restrictive but still shared), 2 (less restrictive), or 3 (no sharing at all). The consumer must then sign and date the form.
