14. JH – Rensselaer Coordinated Entry (2018)

Grant PIN: NY1094

Project Description: Joseph's House and Shelter requests funding for the current CE program in Rensselaer County, NY. The current CE system in effect in our community uses a Housing First approach to systematically outreach and engage the most vulnerable homeless households in our community and enroll eligible households in permanent supportive housing projects. The RCHSC adopted a "No Wrong Door" approach to providing coordinated entry into permanent supportive housing, and the RCHSC Coordinated Entry committee has provided a significant level of outreach and engagement training to funded agencies as well as other community partners, in order to guide staff in understanding who is eligible for PSH opportunities and how to refer eligible persons to PSH. Although most referrals for PSH come from CoC- and ESG- funded community providers, the application form is brief and designed so that it is easy to complete. Homeless households applying for services are requested to provide basic demographic information, data necessary to establish eligibility for PSH, as well as information relating to circumstances under which a household may be prioritized for PSH opportunities. Prospective tenant choice is encouraged, as applicants are able to choose the specific projects for which they would like to apply. As established in the Rensselaer County

Ten Year Plan to End Homelessness, persons experiencing chronic homelessness are the highest priority population for entry into PSH - currently 5 priority points are given to households who meet this criteria. Persons who are unsheltered, are youth under 24, veterans, have two or more disabling conditions, are homeless due to sex trafficking or work in the sex industry, or are currently pregnant also receive an additional point for each situation that applies to them. If not for CoC financial support for this program, the continuum would be unable to meet the CE requirements of the HEARTH Act and other CE-related HUD requirements.
