50.9% of adults (29/57) and 25.0% of children (8/32) in HUD or HHS funded programs self-reported at least one physical, emotional, or other health condition *regardless of whether the condition had become serious enough to be disabling*. Among those reporting multiple conditions, the most significant comorbidity was Mental Health and Substance Use (0). When taking severity of condition into account, 7 adults reported conditions that met the criteria to be considered a disability.^{vii}

Sub-Populations – All Programs

2 (3.6%) individuals over 18 met the criteria for chronic homelessness at the time of project entry. 1 out of every 3.7 adults receiving services this year was a veteran (27.3%). Out of the 15 veterans served, 9 (60.0%) reported a disabling condition and 2 (13.3%) met the criteria for chronic homelessness at admission. At admission, 25 clients (36.8%) of all clients were considered youth (18-24 years of age.)

Data quality and completeness play a major role in ensuring that these data accurately reflect the work being done within the CoC. CARES reports on the health of HMIS data monthly, and this information may be found at www.caresny.org/.

ⁱ Data breakdowns may total less than this number due to differences in data reporting across funders as well as data completeness. Information on **reporting methodology** and on **data completeness** may be found at www.caresny.org/.

ⁱⁱ RRH enrollments are considered residential.

ⁱⁱⁱ For these 'Persons Served' numbers only: if an individual client is served by **BOTH** Residential and Supportive Services programs within the same year, the client is counted once in Residential **AND** once in Supportive Services. Therefore, adding these two numbers may equal more than the total unduplicated number of persons served.

^{iv} Data based on **current** age and household composition, which may differ from information reported at admission.

^v Clients may self-identify up to 5 race categories in HMIS; for the purposes of this report, all clients self-identifying with more than one race are grouped together into the "Multiple Races" category.

^{vi} HUD data standards collects Ethnicity information under the rationale: "To indicate clients who do and do not identify themselves as Hispanic or Latino." HMIS options for ethnicity are: Hispanic/Latino, Non-Hispanic/Latino, Client doesn't know, Client refused, or Data not collected.

^{vii} As per the HUD definition of a disabling condition; please see the most recent HUD HMIS Data Standards Manual for further information.
