May 2019

We're going to keep this short and sweet for May guys! Things are moving and grooving as usual. We are working on System Performance Measures currently and waiting for HUD to issue a final deadline for the LSA re-submission. NHSDC was AMAZING! We all came away with new ideas and perspectives. I also came home with some new tulips. The hotel was redoing their garden and they were just throwing them in the TRASH! Of course I asked if I could have them. As we move on further into May, there may be a few updates sent out, so please keep an eye out! I just really wanted to make sure that I was able to get this out to you all as soon as possible so you could all enjoy what is at the bottom of this newsletter!

## System Performance Measures

### System Performance Measures

First of all let me say "Thank you" to those of you who reached out last month and began working on your data clean up! We are more than 1/2 way there to a fantastic SPM submission. I just said we are more than 1/2 way there???? You should probably make sure you read the entire newsletter to see if I made good on my challenge from last month...

We have pulled a second round of data and will be reaching out to those who need some more assistance in data clean up the week of 4/29 - 5/3. If you receive an email from us this week, we are asking that all data clean up be completed no later than Friday May 10th.

### Data Clean-up Challenge

Wow! So, apparently the thought of me making a fool of myself is super motivating!!!

That being said, yes I went to Ms.Kelli's Karaoke. Yes, I met Ms. Kelli herself, and yes... I sang Karaoke. Alone. Well Bill stood there with me because he is a champ. So,

for your viewing pleasure you can [click here](#) for 4 minutes and 40 seconds of pure torture!

All I ask is that all feed back you send is only complimentary of my amazing skills. HA!
