### Sub-Populations – All Programs

57 (2.8%) individuals over 18 met the criteria for chronic homelessness at the time of project entry.<sup>vii</sup> 1 out of every 27.8 adults receiving services this year was a veteran (3.6%). Out of the 74 veterans served, 35 (47.3%) reported a disabling condition and 6 (8.1%) met the criteria for chronic homelessness at admission. At admission, 176 clients (8.1%) of all clients were considered youth (18-24 years of age.)

### Special Needs – HUD and HHS Funded Programs Only

27.6% of adults (562/2039) and 5.7% of children (47/818) in HUD or HHS funded programs self-reported at least one physical, emotional, or other health condition *regardless of whether the condition had become serious enough to be disabling*. Among those reporting multiple conditions, the most significant comorbidity was Mental Health and Substance Use (117). When taking severity of condition into account, 319 adults reported conditions that met the criteria to be considered a disability.<sup>viii</sup>

Data quality and completeness play a major role in ensuring that these data accurately reflect the work being done within the CoC. Reports regarding the health of these data may be found at [www.caresny.org/](http://www.caresny.org/).

<sup>i</sup> Data breakdowns may total less than this number due to differences in data requirements across funders as well as data completeness. Information on reporting methodology and on data completeness may be found at [www.caresny.org/](http://www.caresny.org/).

<sup>ii</sup> RRH enrollments are considered residential.

<sup>iii</sup> For 'Persons Served' numbers only: if an individual client is served by **BOTH** Residential and Supportive Services programs within the same report period, the client is counted once in **EACH** total; therefore, adding these numbers may equal more than the total unduplicated number of persons.

<sup>iv</sup> Data based on **current** age and household composition, which may differ from information reported at admission.

<sup>v</sup> Clients may self-identify up to 5 race categories in HMIS; for this report, all clients self-identifying with more than one race are grouped together into the "Multiple Races" category.

<sup>vi</sup> HUD collects Ethnicity information under the rationale: "To indicate clients who do and do not identify themselves as Hispanic or Latino."

<sup>vii</sup> Please note that HMIS began using HUD's new definition of chronic homelessness effective 10/1/2015 and all individuals in program on or after that date are measured using this new definition, even if their program start date was prior to the change in definition taking effect.

<sup>viii</sup> Using the HUD definition of a disabling condition; please see the most recent HUD HMIS Data Standards Manual for further information.
