2A. Project Detail

1a. CoC Number and Name: NY-501 - Elmira/Steuben, Allegany, Livingston, Chemung, Schuyler Counties CoC

1b. Collaborative Applicant Name: CARES of NY, Inc.

2. Project Name: Elmira/501 CoC Planning Project (2019)

3. Component Type: CoC Planning Project Application

2B. Project Description

1. Provide a description that addresses the entire scope of the proposed project and how the Collaborative Applicant will use grant funds to comply with the provisions of 24 CFR 578.7.

Funding through this project will be used to coordinate the implementation of a housing and service system to prevent and end homelessness within the CoC. Proposed planning activities fall within the following three categories: (1) coordination; (2) project evaluation, monitoring; and CoC compliance and (3) CoC application development. Coordination activities will focus on engaging CoC Membership and systems partners in carrying out the recently developed CoC Action Plan. Planning staff will track outcomes and milestones noted within the Plan and develop an annual progress report for community review. Activities focused on project evaluation, monitoring, and CoC compliance will include the review/realignment of CoC program performance targets, system performance measures, and written standards to ensure a systemic response to homelessness. Grant funds will be used to allow staff to work directly with the HMIS Committee to monitor and evaluate CoC and state funded ESG programs and provide technical assistance; ensuring each program is meeting or working towards community developed priorities. Planning staff will also review and monitor system performance measures to assess progress in meeting the needs of people experiencing homelessness in the community and will coordinate and submit the annual PIT and HIC reports. Specific CoC compliance activities will include staff coordination with the CoC to ensure the coordinated entry (CE) system is operating within the parameters of the CE policy and procedure manual. Additional compliance activities will include facilitating CoC Board selection, scheduling and facilitating Board meetings, ensuring public invitations for CoC Membership meetings, encouraging representation at the Board, Membership and Committee levels that reflect the community served, and facilitating the annual review of CoC By-Laws. Within activities under the third category, CoC application development, planning funds will be used to coordinate and submit the annual CoC application. Staff will ensure completion of the consolidated application and will work with the Rank and Review Committee/Board to establish annual priorities for funding projects and will work with key community stakeholders to ensure a collaborative process for developing, approving, and submitting project applications in response to the NOFA is conducted.

2. Describe the estimated schedule for the proposed activities, the management plan, and the method for assuring effective and timely completion of all work.

The proposed schedule, management plan, and method for assuring effective and timely completion of work is based on the current successful structure. The goal of the project is to ensure the CoC is compliant with regulations, and is steadily on the path to ending homelessness. Activities focused on implementing the CoC Action Plan will begin immediately and will continue throughout the grant, as this is a key activity in coordinating the implementation

of a housing and service system that will prevent and end homelessness within the CoC. Activities focused on compliance will continue from the current grant and will occur on a monthly basis as review of system performance data and APRs occur. Activities focused on preparing the application for CoC funds will begin immediately but will mainly occur during the time period directly after the NOFA is released. The management plan in place will ensure timely start/continuation of the project if awarded. All proposed activities are overseen by the CoC Unit Director who reports to CARES Executive Director and the CoC Board of Directors. Proposed funding will support a portion of six staff positions (.68 FTE) in order to complete the proposed activities. These positions will be dedicated to monitoring and compliance, system performance and coordinated entry implementation and development. The management plan will include regular oversight of documented proposed activities by the Board. The Director of the Continuum of Care Unit will report monthly at Board Meetings on progress. In order to ensure accountability, the Collaborative Applicant's Scope of Work is reviewed annually, documenting anticipated activities and is available to full membership on CARES' website. In addition, semi-annually the Director will report to full membership detailing completed activities as well as detailing upcoming activities; which will be posted on the website. This reporting will ensure effective and timely completion of all work.

3. How will the requested funds improve or maintain the CoC's ability to evaluate the outcome of CoC and ESG projects?

Requested funds will improve the CoC's ability to evaluate outcomes of CoC and state funded ESG projects by allowing planning staff to continue to work collaboratively with the HMIS Committee, the CoC committee tasked with project evaluation and ongoing monitoring, and the New York State Office of Temporary and Disability Assistance (OTDA), the state ESG grantee. Current Planning funds allow dedicated staff to play an intricate role coordinating and implementing the Data Quality Plan (DQP). The project will further implement and facilitate the monitoring and evaluation process established under the current project funding. The project evaluation involves three main components: Annual Performance Report (APR) Reviews, HMIS Data Memos, and program impact on Systems Performance. Project evaluation requires programs to annually submit APRs for review to the Continuum of Care Committee at least 60 days prior to submitting the APR to HUD to ensure data quality. In terms of HMIS Data Memos, Planning staff and the HMIS Lead collaboratively review HMIS data quality reports and provide joint technical assistance. Staff create Data Memos summarizing any issues related to Data Quality and Systems Performance, including data completeness, length of stay, successful destinations, housing stability, and client income development. Staff provide technical assistance to projects utilizing the Data Memos in coordination with the HMIS Committee to ensure corrective action as necessary. In addition, Planning staff, in conjunction with the HMIS Lead, support ESG monitoring by providing HMIS data to the OTDA for statewide review through a statewide Data Warehouse. With the proposed funding, dedicated staff will continue to implement the Plan and will develop next steps to ensure systems level performance monitoring and improvement. Staff will work to ensure effective and efficient evaluation of program outcomes, shifting the focus of outcomes from project specific to system-wide. In order to ensure systems level change and improvement, Planning staff will continue to work to educate the community on Systems Performance Measures and will monitor systems level performance

for CoC and state funded ESG funded programs.

4. How will the planning activities continue beyond the expiration of HUD financial assistance?

The community is hopeful that HUD recognizes the value of continuing to fund this important project. However, if HUD financial assistance would expire, the CoC would utilize the cooperative relationships established with partners and request private and public funds in order to support the continued advancement of a well-developed, defined, and organized Continuum. Entities that could be approached are local philanthropic foundations, local financial institutions as well as local and county government. All of these entities have been involved within Continuum work and are aware of the importance of continued systems planning and evaluation in order to end homelessness.
