3. *People Home Again Project Expansion FY19*

Project Description: People Home Again Project Expansion will increase the number of dedicated beds for chronically homeless individuals and families. The target population for this program will serve those that have been diagnosed with serious and persistent mental illness or co-occurring mental health and substance use disorders. The proposed project will follow a "Housing First" model, ensuring that program participants are housed as quickly as possible; their needs are met through an available menu of services. Ongoing supports (coordinated through continuous assessments) will be provided either directly by People USA or through community linkages to an integrated network of collaborating partner-providers throughout the service area.

4. *Housing Resource Initiative (HRI) 2019*

Project Description: There are three core components to our HRI program (Rapid Re-Housing). These are housing identification, rent and housing assistance (financial), case management and supportive services. Our Housing Resource Initiative will focus on assisting our homeless to move more quickly into permanent Housing with appropriate services and support. One of our expected outcomes includes minimizing the time an individual spends in shelters or on the street. Our Housing Resource Initiative (a Rapid Re-Housing program) target population will be the chronically homeless individuals in Ulster County. We plan to assist four (4) to six (6) individuals in attaining, securing housing, and remaining off the street. These individuals are considered chronically homeless due to the co-occurring conditions that are impacting their ability to stay off the streets. These are, but not limited to, mental health, substance abuse, legal issues, or poor access to community services.
