
2020 POINT IN TIME AND HOUSING INVENTORY PROCESS

The CoC interim rule documents requirements that Continuums of Care must abide by. One such requirement is to conduct a bi-annual point in time count of homeless persons.

Section 578.7(C2) States the CoC must: *Plan for and conduct, at least biennially, a point-in-time count of homeless persons within the geographic area that meets the following requirements: (i) Homeless persons who are living in a place not designed or ordinarily used as a regular sleeping accommodation for humans must be counted as unsheltered homeless persons. (ii) Persons living in emergency shelters and transitional housing projects must be counted as sheltered homeless persons. (iii) Other requirements established by HUD by Notice.*

The Collaborative Applicant, in compliance with the above sections of the CoC Interim Rule, coordinates with the community to implement the Point-in-Time (sheltered and unsheltered) and the Housing Inventory Chart (HIC) as outlined below.

2020 Point in Time Process

The PIT is a count of sheltered and unsheltered homeless persons on a single night in January. Continuums of Care conduct an annual count of homeless persons who are sheltered (residing in an emergency shelter, transitional housing or Safe Haven the night of the count) and those who are unsheltered (living on the street or in a place not meant for human habitation).
