

# Methodology for NY-520 - Franklin, Essex Counties CoC

## Sheltered Population Total

**1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).**

|                        |             |
|------------------------|-------------|
| HMIS Data              | 50%         |
| Provider-level surveys | 50%         |
| Client-level surveys   | 0%          |
| Observation            | 0%          |
| Other                  | 0%          |
| <b>Total</b>           | <b>100%</b> |

**2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?**

- Complete census count

**3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?**

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Blitz count of persons in shelters (i.e., count occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

## Sheltered Subpopulation

**4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)**

- HMIS Data
- Provider-level surveys

Point In Time Methodology for NY-520 - Franklin, Essex Counties CoC

- Client-level surveys

**5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?**

- All sheltered people

**6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.**

- Increased or improved PIT count training
- Change in transitional housing capacity

**Please provide a brief description of these specific factors (500 word limit):**

This year, we had a decrease in the number of sheltered individuals. We feel this is due to moving individuals on to other Permanent Supportive Housing once they are stable enough to be on their own.

## **Unsheltered Population**

**7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)**

- "Night of the count" - complete census
- "Night of the count" - known locations

- Service-based count

**7a. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas?**

No

**7c. In areas that were canvassed, did the CoC count all unsheltered people in those areas or a sample of people?**

- All people encountered during the count

**8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)**

- Comparison of unique client identifiers (not PII)
- Blitz count of unsheltered people (i.e., canvassing of different areas occurred at same time to avoid double counting)

- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

## **Unsheltered Subpopulations**

### **9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?**

- Surveys/interviews of people identified as unsheltered on the night of the PIT count

### **10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?**

- All people encountered were surveyed

### **11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?**

- Comparison of unique client identifiers (not PII)
- Blitz count of unsheltered people (i.e., sheltered and unsheltered counts occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

### **12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below**

- More volunteers for PIT count
- Change in awareness of PIT count and relevant resources

### **Please provide a brief description of these specific factors (500 word limit):**

Due to additional training on how to conduct the unsheltered PIT count our agencies were able to find three unsheltered individuals this year.
