FY2024 Reporting Year: 10/1/2023 - 9/30/2024

Measure 1: Length of Time Persons Remain Homeless

This measures the number of clients active in the report date range across ES, SH (Metric 1.1) and then ES, SH, and TH (Metric 1.2) along with their average and median length of time homeless. This includes time homeless during the report date range as well as prior to the report start date, going back no further than the look back start date or client's date of birth, whichever is later.

Metric 1.1: Change in the average and median length of time persons are homeless in ES and SH projects.

Metric 1.2: Change in the average and median length of time persons are homeless in ES, SH, and TH projects.

a. This measure is of the client's entry, exit, and bed night dates strictly as entered in the HMIS system.

Metric	Universe (Persons)	Average LOT Homeless (bed nights)	Median LOT Homeless (bed nights)
1.1 Persons in ES-EE, ES-NbN, and SH	761	105.7	56.0
1.2 Persons in ES-EE, ES-NbN, SH, and TH	810	106.6	57.0

b. This measure is based on data element 3.917

This measure includes data from each client's Living Situation (Data Standards element 3.917) response as well as time spent in permanent housing projects between Project Start and Housing Move-In. This information is added to the client's entry date, effectively extending the client's entry date backward in time. This "adjusted entry date" is then used in the calculations just as if it were the client's actual entry date.

Measure 2: Returns to Homelessness for Persons who Exit to Permanent Housing (PH) Destinations

This measures clients who exited SO, ES, TH, SH or PH to a permanent housing destination in the date range two years prior to the report date range. Of those clients, the measure reports on how many of them returned to homelessness as indicated in the HMIS for up to two years after their initial exit.
