All entries occur through the CoC's Coordinated Entry System. Individuals are housed in site-based housing at the Lansing Inn and the Hill Street Inn for individuals experiencing chronic homelessness. Services include intensive case management, life-skills training, transportation assistance, tenancy preparation, and individualized safety planning—designed to increase stability and prepare participants for permanent housing. Strong community partnerships expand access to behavioral health care, primary medical services, employment and education support, legal assistance, and other specialized resources. Staff coordinate referrals, schedule appointments, and follow up to ensure engagement. Participation in supportive services is mandatory. Households work with staff on housing readiness, behavioral health stabilization, and self-sufficiency, supporting transitions to stable, permanent housing. Staff assist participants in accessing mainstream benefits, including Medicaid, SSI, SNAP, and other resources to enhance income stability and successful housing outcomes.

JH Outreach Rensselaer Expansion

Project Description: The Street Outreach project will be the primary access point for people experiencing unsheltered homelessness in Rensselaer County. Many individuals live in encampments, abandoned buildings, vehicles, or other places not meant for habitation and are disconnected from services due to trauma, mental health challenges, substance use, and deep mistrust of institutions. Without proactive outreach, they often remain unserved. By offering basic survival resources—food, clothing, blankets, hygiene items, transportation—we address immediate safety needs and open the door to housing-focused case management. Outreach acts as the critical bridge to shelter, medical and behavioral health care, identification and benefits enrollment, and long-term housing solutions. Staff develop individualized plans to reduce barriers, increase income, and support movement toward permanent housing, especially for those not yet ready to engage in traditional programs. The project maintains strong collaboration with first responders and hospitals, including Albany and Troy Police Departments, EMS teams, Albany Medical Center, and Samaritan Hospital. We respond to referrals for individuals found outdoors or in crisis, conduct welfare checks, deescalate situations, and coordinate access to shelter, treatment, transportation, or medical care. Hospitals contact our team for safe discharge planning when patients are homeless, enabling smooth transitions to shelter, case management, treatment, or housing navigation. These coordinated efforts result in quicker connections to appropriate services, reduced reliance on emergency systems, improved safety, and more successful transitions to housing. Our long-standing partnerships demonstrate a unified community response to street homelessness. The team provides repeated engagement, flexible scheduling, and persistent follow-up, helping participants navigate shelter, treatment, benefits, identification, and housing applications. This model ensures that even service-resistant individuals have ongoing opportunities to engage, stabilize, and move toward permanent housing and self-sufficiency.

St. Paul's Center

SPC – Transitional Housing

Project Description: The target population for this transitional housing program is homeless families appearing on the coordinated entry wait list who meet the HUD requirements for admission to transitional housing programs.

SPC will develop, in concert with the admitted households, customized service plans that address the needs of each person in the household. Through the staff-tenant collaboration to develop this plan, goals specific to the tenant will be developed. Barriers identified by staff AND tenant will be identified and together, they will develop strategies to address those barriers. Such a process allows barriers to be addressed in a timely basis, with both parties working together to overcome. This collaborative process ensures the tenant has skin in the game by validating their experiences and concerns, and identifying and utilizing their individual strengths in a manner that moves them to housing stability and self-sufficiency.

Participation in support services by program enrollees will be required; prior to program admission, tenants must sign a Support Services Agreement that details program participation requirements and makes clear that the lack of participation may result in program discharge.

Through SPC's participation in the Social Care Network (1115 Waiver), all participants in the household will be screened to uncover the need for additional support services. Staff are being trained to provide enhanced navigation and housing navigation. Through current MOUs/linkage agreements, a variety of public and private providers will provide additional services and supports to housing tenants and through the Healthy Alliance's Unite Us referral platform, staff and tenants will be access to a broad variety of private and public supports.
