  - CoC planning Project Listing;

- Collaborative Applicants are responsible for ensuring all project applications accurately appear on the Project Listings and there are no project applications missing from one or more Project Listings.
- For each project application rejected by the CoC, the Collaborative Applicant must select the reason for the rejection from the dropdown provided.
- If the Collaborative Applicant needs to amend a project application for any reason, the Collaborative Applicant MUST ensure the amended project is returned to the applicable Project Listing AND ranked or approved BEFORE submitting the CoC Priority Listing to HUD in e-snaps.

NEW PROJECTS

CORNING COUNCIL FOR ASSISTANCE AND INFORMATION FOR THE DISABLED, INC. DBA AIM INDEPENDENT LIVING CENTER

AIM - Support Services Outreach 2027

Project Description: Aim is requesting funding for a support services only project to assist individuals experiencing homelessness across Chemung, Schuyler, Steuben, Allegany, and Livingston Counties who face significant barriers to exiting homelessness, including lack of identification, limited access to public benefits, untreated medical or behavioral health conditions, transportation challenges, and difficulty navigating multiple service systems. Many individuals are unsheltered or unstably housed but are not connected to case management or structured programs.

This project establishes a consistent, region wide framework that brings these critical supports to individuals who would otherwise remain disconnected from the homelessness response system. By standardizing access points across all five counties and integrating AIM's multidisciplinary services into a single coordinated model, the program reduces fragmentation and ensures that individuals can move seamlessly from crisis to stabilization to housing. The project fills gaps where no comparable resources exist, particularly in rural areas of the 501 CoC where services are limited or difficult to reach. This coordinated approach increases engagement, reduces system barriers, and provides a sustainable pathway toward permanent housing and long-term self-sufficiency.
